

## **PRODUCT INSTRUCTIONS: LEVELLING AGENT**

Add Tintex Levelling Agent in equal amounts as to Tintex High Temp Dye in the dye process. Use Tintex Levelling Agent where boiling of the garment is impractical. For best results dissolve Tintex Levelling Agent in 500ml boiling water and stir until dissolved. Add to dye bath at the same time dissolved dye is added. Stir / agitate solutions well in dye bath before adding garment to be dyed. Proceed with dyeing method as per instructions.
